

## About Digihome

**Digihome Solutions Pvt. Ltd. (DSPL)** was established in 2005 to offer intelligent home solution using cutting edge technologies. With its registered office in Mumbai, operations headquartered in Pune and manufacturing facilities in Solan, Himachal Pradesh, DSPL is fully focused on providing high quality, cost effective solutions, to cover the entire range of residential accommodations, from apartment to villas. DSPL is increasing its network of sales and support outlets to cover all major locations in India. DSPL's vision is to capture sizeable market share in the global intelligent home market.

### DS-100

DS-100 from Digihome Solutions Pvt. Ltd. is a radically different, innovative, highly integrated Intelligent Home solution, which provides a new lifestyle to the apartment owners and help builders sell their schemes faster.

Based on the solution from Aftak Infosys Ltd. it integrates various cutting edge technologies, yet keeping the usage extremely simple.

DS-100 provides various gadgets that are installed at two levels - home and society. Rich features are provided amongst various categories: Security, Safety, Automation, Information, Communication and Entertainment.
